MEMORANDUM FOR: Special Assistant to Director, NFAC
FROM : James P. Hanrahan
Deputy Director, Regional & Political Analysis
SUBJECT : Briefings Requested by Mr. Hetu

1. Attached please find the briefings requested by Mr. Hetu via . We recommend that the briefings on the Economic Outlook for Europe and NATO not be volunteered as they are too close to home for this audience. Also the State of the World is a fuzzy concept to handle and the paper prepared on the US-USSR Strategic Balance (instead of East-West balance) does not take us much beyond the bean counting.

2. We have also added the following briefings which the DCI may wish to substitute or use as background for the question and answer period:

NATO/Warsaw Pact Balance (good subject for this group and the pitch is right)

Soviet Economic Prospects (also good subject and one they will probably be asking about)

Eastern Europe

China

Rhodesia

Soviet Internal Political Scene

Soviet Assessment of Eurocommunism (for background only to handle questions)
